Technical characteristics:

GEMINI Regulation

- Carousel menu, easy to use
- Simultaneous display:
  - > Real L/HA, programmed L/HA and speed
  - > Boom with status of open/closed sections
  - > Real or theoretical pressure
- Info key showing:
  - > Liter/minute
  - > Tank level
  - > Partial surface
  - > Partial volume
- Sequential disconnection of sections, up to 6
- Direct access for controlling:
  - > 3-function hydraulic selector
  - > Rotating light
- Flow sensor and/or pressure sensor regulation
- Dose modulation
- Regulation to minimum pressure
- Alarms:
  - > End of tank
  - > Min./max. flow
  - > Min./max. pressure
- Partial or total volume, surface area and distance counters
- Theoretical management of tank with alarm
- 5 wheels, 5 programmable booms
- Frames with 5 pre-programmed nozzles, which can be programmed by the user and with min./max. pressure management
- Management of N2, N3 circulation
- Automatic calibration:
  - > Wheel
  - > Flowmeter
  - > Pressure sensor
- Diagnostic menu, accessible at any time
- Backlit graphic display 128 x 64 dots
- Robust compact aluminum unit (142 x 121 x 42 mm, sealed IP65)
- Contrast, reversible backlighting, key beep, multiple languages (8 languages included)
- Option: Galileo Module GPS information and/or GPS speed sensor

GEMINI uses CAN Bus Technology with a 5-wire cable between the tractor and machine.

Power supply 11-16 volts

Supplied with:
- AS600 junction box
- 12 m CAN bus cable
- Attachment bracket
- Manual in English

2 years Guarantee

CE RoHS

Quick access to information

Carousel menu for easy navigation
