

To each equipment its solution !

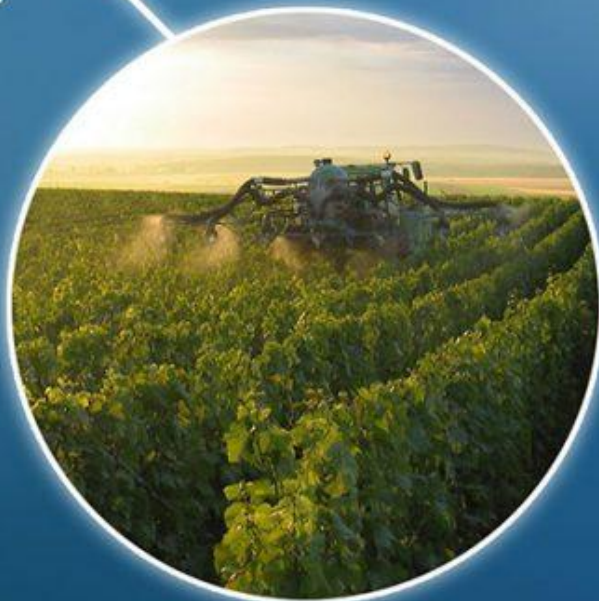

Spraying controller

Flow controller

Electronic gauge

Surface counter

Filling Counter

GEMINI

Multi-Functional counters

- *Accurate measures*
- *Easy setting up*
- *Sturdy compact display unit*

//// //// //// //// //// //// //// //// //// **AGRO System**

www.agrosystem.fr

Technical characteristics:

- Carousel menu, easy to use
- Simultaneous display:
 - > Partial volume (L), total (L), flow (l/min) or pressure (bars)
 - > Speed (km/h) or (miles), surface (ha), and distance (m)
 - > Rate (L/ha), speed (km/h), and flow (l/min)
 - > Volume (L)
- Info key showing:
 - > Type of nozzle / Liter minute at 3 bars
 - > Type of wheel / number of pulse
 - > Pressure, Surface, partial volume
- Direct access for controlling: Filling stop valve
- Alarms: Min./max. pressure
- Counters:
 - > Surface, volume
 - > Partial and total volume
- Automatic start of the counter possibility
- Length of the tools programming
- Tank management: filling stops automatically and alarm
- Spraying detection possibility
- 5 wheels
- 5 programmable booms
- Frames with 5 pre-programmed nozzles, which can be programmed by the user and with min./max. pressure management
- Automatic calibration:
 - > Wheel
 - > Flowmeter
 - > Pressure sensor
 - > Electronic Gauge
 - > Flowmeter for electronic gauge calibration
- Diagnostic menu, accessible at any time
- Backlit 128 x 64 point graphics display
- Robust compact aluminum unit (124 x 108 x 42 mm, sealed IP65)
- Contrast, reversible back lighting, key beep, multiple languages (8 languages included)
- Speed sensor
- Galileo GPS Speed sensor
- Flowmeter
- Pressure sensor
- Pressure sensor for electronic gauge
- Sensor for counting detection
- Stop filling valve
- Flowmeter for electronic gauge calibration
